English

Last week in class we created a fact file about an ocean animal. This time, I'd like you to choose a different sea creature and make a new fact file. Don't forget to draw a picture to go with it!

Here is an example that you could use.

Ocean Animal Fact File Template

My animal: _____

It is _____ and _____.

It eats _____.

It lives in the _____.

Fun fact: _____.

Maths

I would like you to pick a 2 digit number (ie 11,14,16) and then to add a 1 digit number. Remember to put the big number in your head and then add on the small number. Write down your number sentence.

$$11+4 =$$

How many number sentences can you do? Can you spot any patterns?

Art

In art we are looking at the story of the Rainbow Fish. I would like you to design a fish using any materials that you have at home.

Geography

What clothes would you pack to go on holiday?

Imagine you are going on holiday!

Make **two lists**:

1. Clothes you would need for a *hot* country

(Think about staying cool and protecting yourself from the sun.)

2. Clothes you would need for a *cold* country

(Think about keeping warm and dry.)

Then:

Write or draw what you would pack in your suitcase for each place.
